# LEVELLING SYSTEMS

## ZERO

ZERO clips handle tiles with a thickness up to 14mm, taller than most competition's 12mm limit, thus supporting the entire interior stoneware market offer with a single product. ZERO clips are available in 6 different variations for joint sizes from 0,5mm to 4mm  
 ZERO23 clips handle thickened stoneware or marble slabs for internals up to 23mm, laid with 0,5mm or 1mm joints, and ZERO32 clips support materials for externals, with thickness up to 32mm, and 5mm minimum joint.

### UNIVERSAL WEDGE FOR LEVELLING BASE

SKU#	DESCRIPTION	
2941	200 pcs bag	12
2941EP	8 bags display box	1
2942	200 pcs bag	12
2942EP	8 bags display box	1

### UNIVERSAL PLIER

SKU#	DESCRIPTION	
2200	Dual calibration universal metal plier	1

### UNIVERSAL LEVELLING BASE MAX H. 14MM

SKU#	JOINT	DESCRIPTION	
2244	0,5 mm	200 pcs bag	18
2247	1 mm	200 pcs bag	18
2246	1,5 mm	200 pcs bag	18
2248	2 mm	200 pcs bag	18
2249	3 mm	200 pcs bag	18
2250	4 mm	200 pcs bag	18

### UNIVERSAL LEVELLING BASE MAX H. 23MM

SKU#	JOINT	DESCRIPTION	
2260	0,5 mm	200 pcs bag	18
2261	1,5 mm	200 pcs bag	18

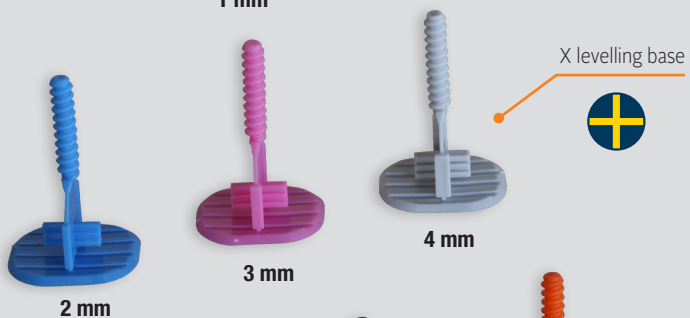

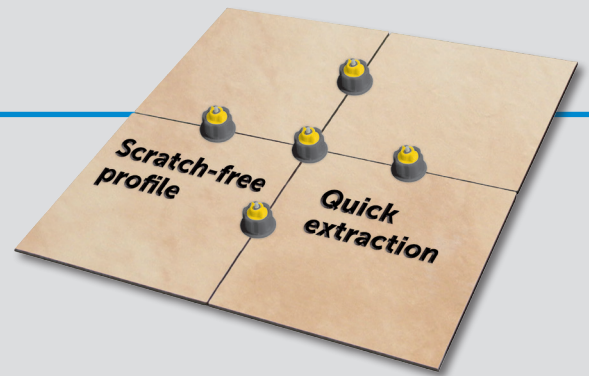

### UNIVERSAL LEVELLING BASE MAX H. 32 MM

SKU#	JOINT	DESCRIPTION	
2262	5 mm	200 pcs bag	15

# CLICK

The patented CLICK leveling cap effortlessly achieves perfect flatness between adjacent tiles. **Tie it with bare hands**, no tools required. The sculpted bottom contact edge eases residue removal, **avoiding tile scratching risk**.

CLICK's patented **release system** allows for **instant insertion and release**, avoiding long screwing and unscrewing typical of old generation systems. Screw bases are available in **different shapes** to allow for installation along **tiles' sides** or on the **corners**, and in **various thicknesses** to support most common **joint calibres**. **Taller screw bases** are also available, working with the same cap, to handle exterior installation tiles up to **30 mm thick**.

QUICK LEVELLING CAP		
SKU#	DESCRIPTION
